

## Automated Delivery of 128-bit SSL Certificates

SSLFactory provides the ability to deliver 128-bit SSL Certificates directly to your customers. The process is *completely automated*, saving you time, money, and valuable resources when provisioning SSL Certificates.

### Self-Service

With SSLFactory and ModernBill, managing and provisioning certificates is done by you without intervention from any third party service.

Utilizing the advanced API connection between ModernBill and SSLFactory, you simply click a few buttons and 128-bit SSL Certificates are automatically provisioned to your customers.

### Do you need a SSL Certificate?

Absolutely. When it comes to online shopping, customers identify the “lock” on your website as a trusted website to purchase products and services.

*Customers are more likely to purchase from websites with a SSL Certificate* as it provides secure transactions and protection of sensitive data including names, addresses, and credit card information.

### Quick, Easy, and Efficient

#### Quick

It only takes a few minutes to get your system setup. SSLFactory is already integrated in ModernBill. The configuration steps are fully documented and require only a few pieces of information so you can start selling almost instantly.

#### Easy

With SSLFactory, it is extremely easy to sell and distribute SSL Certificates. ModernBill provides the interface and technology to make it easier than ever to sell and distribute SSL Certificates directly from your website!

#### Efficient

Reduce the number of man hours you would typically use when setting up SSL Certificates. Using SSLFactory can save you hundreds of man hours per year, reducing overall cost, and increasing efficiency within your organization.

### Peace of Mind

Certificates by SSLFactory gives your customers peace of mind knowing their websites, data, and important information are secured with a 128-bit SSL Certificate.

Customers with peace of mind feel confident in their purchases and are more likely to buy from your website again.

## Expand Your Product Offerings

Offer SSL Certificates in addition to your current products and services offerings.

### Current Product Offerings

There are four product offerings with SSLFactory:

- RapidSSL
- QuickSSL
- QuickSSL Premium
- True BusinessID

### Branded SSL Certificates

SSL Certificates by SSLFactory are branded by trusted certificate authorities (CAs). Customers recognize the value of these branded certificates and are more likely to purchase from you as an SSLFactory member.

### Payment Choices

SSLFactory gives you two great options to choose when paying for SSL Certificates.

#### Pay-as-you-go

Buy SSL Certificates one at a time as your customers need them. You simply place a credit card on file with SSLFactory. We do the rest.

#### Bulk-Recurring

Purchase in bulk by depositing funds in your account with SSLFactory. Receive higher discounts and savings by purchasing in bulk.
